Qatar FinTech Hub announces wave 2 of its incubator; accelerator program

Qatar FinTech Hub (QFH), co-founded by Qatar Development Bank and FinTech Qatar, has announced wave 2 of its incubator and accelerator programs.

The incubator program, which was launched in 2021, is designed to support the growth of innovative startups in the FinTech space. The accelerator program, on the other hand, is designed to help startups scale and expand their operations.

The announcement marks a significant milestone for QFH, which aims to become the leading hub in the Middle East for FinTech innovation.

The program’s focus is on providing mentorship, funding, and access to a network of industry experts to help startups grow and succeed.

The latest batch of startups will be mentored by industry leaders and experts, and will have access to a variety of resources and services.

The success of Qatar FinTech Hub is attributed to its focus on fostering innovation and collaboration, and its commitment to supporting startups at every stage of their development.

As of now, the incubation and accelerator programs have successfully supported a number of startups, helping them grow and scale their operations.

The next few years are expected to be a key period for these startups as they aim to expand their operations and tap into new markets.

Qatar and India to strengthen business partnerships

Qatar and India have signed a number of Memoranda of Understanding (MoUs) in the fields of trade and investment cooperation, culture, education, and technology.

The MoUs were signed during a visit to Qatar by Indian Prime Minister Narendra Modi, who was accompanied by a high-level delegation.

The agreements aim to strengthen economic ties between the two countries, with a focus on sectors such as infrastructure, energy, and technology.

The signing of the MoUs is expected to open up new opportunities for businesses in both countries, and to help drive growth and development in key sectors.

The agreements are seen as a significant step forward in the relationship between Qatar and India, and are expected to bring tangible benefits to both countries.

Qatar aims to capitalize on its strategic location and its strong partnerships with international companies to attract more investments and businesses from India.

India, on the other hand, is looking to leverage Qatar’s expertise in key sectors such as energy and infrastructure to support its economic development.

The agreements are expected to create new job opportunities, stimulate economic growth, and enhance the overall quality of life for residents in both countries.
HIA voted ‘Best Airport in the Middle East’ for fourth year by GT Tested Reader Survey awards

HIA, Hamad International Airport (HIA) has been honored as the ‘Best Airport in the Middle East’ for the fourth consecutive year at the recent GT Tested Reader Survey awards.

The award recognizes the excellent outstanding customer service efforts by HIA in the passenger-oriented airport experience. An estimated 75% of GT’s readers have visited HIA and provided their views on their experience.

“HIA has continued to invest significantly in the passenger experience in all aspects of the airport operations. This success is attributed to the continuous focus on providing the best customer experience through various initiatives such as the ‘One Stop Service Desk’ and the ‘Ambassador Program’, which aims to ensure that passengers have a seamless journey through the airport,” said Mr. Mohamed Al Badi, Chief Executive Officer of HIA.

“HIA is committed to providing the highest level of service to our passengers, and this award is a testament to our efforts. We will continue to strive for excellence in all areas of our operations to meet the ever-evolving needs of our passengers,” he added.

The GT Tested Reader Survey Award honours the outstanding outstanding customer service offered by HIA in its passenger-oriented airport experience.

Qcica official underscores Qatar’s economic laws, focus on resolving commercial disputes

Sheikh Taimur bin Khalifa Al Thani, Minister of Commerce and Industry, underlined the importance of Qatar’s economic laws in ensuring the country’s continued development and prosperity.

In a recent statement, Sheikh Taimur emphasized the importance of the country’s economic laws in attracting foreign investment and promoting trade. He highlighted the effectiveness of Qatar’s economic laws in resolving commercial disputes and ensuring a fair and just legal environment for all businesses.

“Qatar’s economic laws are designed to protect the rights of all parties involved in commercial transactions and to promote a fair and just legal environment,” Sheikh Taimur stated.

The statement was made in response to recent inquiries about Qatar’s economic laws, with Sheikh Taimur assuring investors and businesses of the country’s commitment to enforcing these laws and resolving disputes in a timely and efficient manner.

On the occasion of Qatar National Day, 18th of December

We extend our heartiest congratulations and greetings to:

His Highness Sheikh Tamim bin Hamad Al Thani
Emir of the State of Qatar

His Highness Sheikh Hamad bin Khalifa Al Thani
Father Amir

His Highness Sheikh Abdullah bin Hamad Al Thani
Deputy Amir

and to all the honorable people of Qatar

We hope for more returns of this memorable occasion and with that Qatar always enjoys security, welfare and prosperity under the wise leadership of His Highness The Amir.

**International foreign banks remain bullish on Qatar bourse**

By Kathlyn V. Valencia

The Qatar Stock Exchange yesterday traded a total volume of QR11.99 billion, despite hitting a new all-time high on Tuesday, with foreign investors seen bullish on Qatar.

Foreign inflows have been seen bullish and there were signs of net selling by their domestic counterparts yesterday as the Qatar Stock Exchange closed at 3,860.04 points, although it touched an all-time high of 3,863.50 points.

The domestic fund had seen net purchases for the second straight day, with QR1.01 billion, according to the State of Qatar: the market, where spot and foreign banks were trading aggressively.

Trade turnover gained momentum almost 40% higher than a year ago, with the banking and industrial sectors taking on a broader role.

More than QR6 billion of QR11.99 billion was traded in the domestic and international sectors, with the domestic shares accounting for the lion’s share.

**QLM listing to give more depth to the market, says QSE chief**

By Kathlyn V. Valencia

The Qatar Stock Exchange (QSE) has listed the leading chemical company, QASSE, on the QSE for QR1.5 billion, representing a new addition that will give more depth to the market.

The listing of QASSE Ltd on the QSE last week was an important step in the development of the QSE, with its market capitalization reaching QR11.99 billion.

The QSE is now trading in the region at QR11.99 billion, up from QR11.98 billion the previous day.

The QSE, which has QR11.99 billion in liquidity, increased its trading volume by QR11.99 billion and its trading in the QSE for the week.

The QSE is currently trading at QR17.99, up from QR17.98 the previous day. The QSE's total market capitalization is QR11.99 billion.

**Building sale deals dominate property market by 56%**

By Ezdan report

The property market has witnessed an increase in the number of buildings sales, which generate more than 56% of the total sales volume, while vacant land has only contributed to 4.3% of the total property sales.

The real estate market activity from January to July 2023, showed a significant increase in the number of buildings sales with a total value of QR1 billion, which is a result of the price hikes in the market.

The rate of sales was distributed among Doha, Al Rayyan, Al Wakra, Al Mattar, Al Shamal, Al Ain, and Al Shamal, with Al Mattar leading the market.

**Building sales in Doha are expected to increase by 5% this year**

By Ezdan report

Building sales in Doha are expected to increase by 5% this year, according to a report issued by the Ministry of Development and Housing.

The report predicted that the market will experience a significant growth in the number of building sales, with a total value of QR1 billion.
