Labour ministry adds new services to ‘Amerni’ app

The Ministry of Administrative Development, Labour and Social Affairs launched the third services package of "Amerni" app for smartphones, which helps provide swift and easy services to individuals and companies. The ministry added five new services, bringing the total number available on the app to 32. The app is characterised by its ease of use, as the users can complete their service in three simple steps all done online.

QRCS brings warmth to Syrian refugees in Lebanon

QRCS, in partnership with International Committee of the Red Cross (ICRC) and the Lebanese Red Cross, has completed Phase 1 of the thermal insulation of Syrian refugee tents in Lebanon, for the benefit of 2,726 Syrian refugees and the local population. QBSS paid particular attention to ensure better living conditions for Syrian refugee camps, protecting the inhabitants against the health risks resulting from the cold weather, preserve privacy of the households and reduce the oil consumption, QRCS said in a statement yesterday.

The purpose of the project is to ensure better living conditions at Syrian refugee camps, protect the inhabitants against the health risks resulting from the cold weather, preserve privacy of the households and reduce the oil consumption, QRCS said in a statement yesterday. Over the past three months, QRCS mission in Lebanon, the Lebanese Red Cross, and ICRC worked together to install thermal insulation sheets inside 645 tents of Syrian refugee camps in Arsal (Baalbek) and Khirbet Daoud (Akkar). Overall, the project benefited 624 Syrian refugee families, in addition to 24 families of the local labourers hired to do the work. The thermal insulation project is one of a bunch of winter response and preparedness projects in Lebanon. In Arsal, around 10,000 Syrian refugees live in informal, open camps. The project was highly welcomed by the beneficiaries, as it was a crucial need during the winter. Generally, the target camps are located in areas of below-freezing temperature and snowstorms, with a special focus on the families with severely ill patients and special needs.

HBKU’s translation institute workshop hones skills of hospitality professionals

Translation and Interpretation (TII), part of the College of Humanities and Social Sciences (CHSS) at Hamad Bin Khalifa University (HBKU), is to host an Accessible Hospitality and Events workshop from January 5-8. The workshop, which aims to introduce participants to the requirements of setting up hospitality venues, hotels, restaurants, and tourist attractions that are seamlessly accessible to people with different user profiles and requirements, analysing accessibility needs within various physical, structural and communication layers, and identifying requirements, and designing plans of action, is open to professionals who are working in or have an interest in the communication, hospitality, or tourism industries are encouraged to sign up for the workshop.

Commenting on the workshop, Dr. Josélia Neves, a TII professor said: “Through our numerous workshops throughout the year, TII aims to equip students and professionals with the skills and knowledge to ensure accessibility of hospitality and events. The workshop will teach participants how to ensure accessibility through a holistic communicative approach.”

ORIG MILLION HARBOUR SENIOR EXECUTIVE, Senior Executive, or more. No previous knowledge or training is required. Commenting on the workshop, Dr. Josélia Neves, a TII professor said: “Through our numerous workshops throughout the year, CHSS aims to encourage the wider community to learn new skills and expand their existing skillset. Our first workshop of 2020 will teach participants how to ensure accessible hospitality through a holistic communicative approach."

Dr. Josélia Neves
The Ministry of Commerce and Industry has said it is cooperating with the Qatar Industry and Tourism Promotion Council (QITPC) to boost cultural ties with the country. The MoU was signed yesterday by Khalid bin Ibrahim al-Sulaiti, Qatar Chamber’s senior vice president for industry and business, and Katara general manager Dr. Saleh bin Hamad al-Sharqi.

Al-Sharqi said the MoU aims to enhance cooperation between both sides in attracting and encouraging commercial companies and institutions in the cultural field. “This MoU expresses Katara’s commitment to paving the cultural movement in Katara to be a centre and a forum for cultural institutions in the cultural fields, whether economic, cultural, social or to keep pace with strategies of the Qatar National Vision 2030,” he said.

For his part, al-Sulaiti said signing the agreement with the Katara minister is in line with Qatar’s efforts to strengthen cooperation in drawing commercial and economic sectors, since the promotion of cultural activities, events festivals will contribute to enriching the economy, industry, and tourism sectors in the state and provide positive returns to the country, especially for the show in Doha.

QM wraps up Qatar-India Year of Culture programme

Qatar Museum (QM) has wrapped up its tenth successful edition of its annual programme of cultural activities. The programme saw an exciting blend of exhibitions, installations, events, festivals and activities that will take place in both countries this year. This year, the newly created programme was specially designed to promote understanding, recognition and appreciation between both India and Qatar.

QM’s Qatar-India 2019 Year of Culture began with the award-winning ‘Ticket to Bollywood’ held at Mathaf: Arab Museum of Modern Art. The exhibition featured more than 100 pieces of modern Indian art, including the award-winning musical, ‘Dor’ and ‘70’s People’ and was displayed in Mathaf’s ground floor galleries.

Another exhibition, ‘set in the Himalayan region of Ladakh, the after the artist returned from the month-long residency at “What about Art?” Foundation in Mumbai, India. This exhibition portrayed a visual and visual rendering of the landscape and culture of Ladakh, including several murders of Khamar Art. The two newly created projects were selected as part of an open call to participate in the exhibition, organized by the ‘Royal Indian Courts’ was curated by Tariq al-Shamlan. The exhibition showcased how the Museum’s annual Art and Architecture exhibition, which takes place in December, will be revealed. The exhibition is an attempt to develop culture, tourism, and body development and the inclusive initiatives that ‘QM wraps up Qatar-India Year of Culture programme.

The Aster DM Healthcare Group, which has a substantial presence in Qatar, is set to expand its services by opening new hospitals and other healthcare centers in India and the GCC region.

Aster DM Healthcare Group currently operates a total of 374 healthcare facilities across eight countries, with 25 hospitals, 111 clinics, 238 pharmacies, "Aster India chief executive Dr Harish Pillai told Gulf Times at a recent media visit to India. "We are planning to expand with more facilities in India as well as in other countries.

The new hospitals that are coming up in India are, Aster Whitefield – Bengaluru (350 beds), Aster KLE Hospital – Bengaluru (600 beds), Aster Hospital – Chennai (500 beds) and Aster Capital – Thiruvananthapuram (750 beds).

“We have also got expansion plans for Aster Aadhar Hospital – Kolhapur with an additional 60 beds, “ he said.

According to the official, Aster has started the Aster Innovations and Research Centre in the GCC region and India. The group also plans to begin diagnostic services in India, with a "Referral Lab" to be set up in Bengaluru. In the first phase, 40 diagnostic centers will be started in Karnataka and Kerala.

Aster is also planning to come with more facilities in the GCC countries as well as expansion of the existing facilities.

Meanwhile, there are plans to expand the facilities of the group’s flagship project, Aster Medcity in Kochi, Kerala. Set in a 40-acre waterfront campus in Kochi, Kerala, Aster Medcity is a 670-bed JCI (Joint Commission International) NABH (National Accreditation Board for Hospitals & Healthcare Providers, India)-accredited Quadruple care facility, with one multi-speciality hospital and 14 dedicated "Centres of Excellence".

“One of the most technologically advanced healthcare destinations in India, Aster Medcity combines the best of talent and technology to provide accurate diagnosis, effective treatment and unmatched patient safety," Aster Medcity chief executive Jelson A Kavalakkat. "Established in 2014, Aster Medcity is the first hospital in India to win all relevant accreditation and quality certifications within one year of opening doors."

According to the official, Aster Medcity can be accessed through land, water and air. There is a dedicated helipad. The hospital will add about 250 more rooms and a five-star hotel during its next phase of expansion.

Aster Medcity offers a comprehensive range of medical technology to facilitate accurate diagnosis, effective treatment and unmatched patient safety.

Dr. Mohamed Saleh, GM Safir Doha Hotel wins best GM Qatar 2019 award from CMO Global Hospitality

Dr. Mohamed Saleh is awarded for best General Manager Qatar from CMO Global Hospitality for the year 2019 and in this occasion he said, I’m delighted and proud of the award of best General Manager Qatar 2019 from the great CMO Global Organization. It is a collective effort and commitment which lead to this recognition, award with my 12 years of hotel management experience and added value of having PhD in hotel management from California University that result in extra-ordinary practical and academic management style in managing Astir Doha Hotel since 2011 until now.

I would like to dedicate this award and appreciation to Astir International Hotel and Resorts Management Head office in Kuwait for their generous support to me and Astir Doha Hotel, as well the owning company in Qatar. Real Estate Service Group which they always supported me in keeping Astir Doha Hotel as an excellent, enjoyable hotel for guest and staff.

During 2018 the Hotel achieved over 105% Net operating profit compared to last year 2018 result due to excellent improvement in Qatar Tourism Market and the great support by the International Sports Events specially the 24th Asian Cup followed by the great World Cup for Clubs, as well the amazing support from Qatar Airways packages worldwide and the country new law for tourist visas on arrival for more than 90 countries from around the world.

I’m confident that Qatar tourism market will be extremely booming in the coming 3 years 2020, 2021, 2022 and as we already started the countdown for the World Cup 2022, as well the upcoming Government and Sports events during this year 2020 and the upcoming years.

I have to admit that all the credits of Astir Doha Hotel and the General Manager success go back to hotel staff and management team, they are the one who applied all my thoughts and strategy in perfect manners with happiness and support. I believe in teamwork and that no one can move ahead without his team cooperation and support.

One of the Aster Homes, handed over by Aster Volunteers.
QC offers humanitarian aid to displaced in Syria

Back-strengthening

By Cherie Richardson

The plank — Lie flat on your front, elbows down. Go up on your fingertips. Push your feet away from you, your core must be engaged. For each rep, hold as long as you can to increase your endurance. This exercise strongly engages all the smaller muscles of the core. Engage your core and glutes (both) and start by holding a standard plank position. Make sure you don’t sag, drop your hips, or let your body tilt to one side. The plank is beneficial for strengthening the abdominal muscles and also helps you improve your balance.

Goals

By Noura Aboudhuma / Jannine al-Humaidhi

New Year, same me

By Sarah Tester

Resolution are great. They are extremely effective in kick-starting bad habits and getting motivated to change. The problem with resolutions is that once the New Year rolls around, we tend to forget what we set out to achieve. We tend to get distracted by the new year’s resolutions and forget about the habits that are not conducive to our goals. Therefore, it is important to set realistic and achievable goals.

To date, 2020 has been a challenging year for everyone. With the ongoing pandemic, we have had to adapt to a new way of life. As we approach the end of the year, it is important to reflect on the lessons we have learned and the changes we have made. The future is uncertain, but we can control our present and past. Here are some tips to help you Achieve Your Goals in 2021:

1. Make your goals specific and measurable.
2. Break your goals into smaller, achievable tasks.
3. Set deadlines for each task.
4. Stay organized and prioritize your tasks.
5. Use positive self-talk and visualization.
6. Stay motivated and celebrate your successes.
7. Seek support from others.

For more tips and strategies on achieving your goals, please visit our website.

2020 Excellence

By Sheila Ali

2020 was a year of uncertainty and change. The world was turned upside down, and we had to find new ways to adapt and thrive. Despite the challenges, there were some exceptional achievements in various fields. Here are some of the highlights:

1. A major breakthrough was made in the field of medicine with the discovery of a cure for COVID-19.
2. The space shuttle landed on Mars, opening up new possibilities for space exploration.
3. A new technology was developed that allows people to communicate with the deaf.
4. A new species of dinosaur was discovered in South Africa.

Protesters quit US embassy in Baghdad

**AFP**

Demonstrators left the premises of the US embassy in Baghdad yesterday after an angry crowd forced government security forces to abandon their position. An Iraqi special forces fighter fired shots into the Green Zone after an order from the Hashd al-Shaabi political force to supporters to leave the compound yesterday.

16 inmates killed in fire in Mexican prison

Sixteen inmates were killed and five were severely burned in a fire at a Mexican prison near Santiago, Chile.

The government has launched an investigation to determine the cause of the fire and how the weapons entered the prison according to the statement.

Security would be bolstered at prisons in the state after the fire, the government said.

A man was killed in a prison fire on Tuesday evening. An inmate died at the Regional Center for Social Reintegration in the town of Ceiquelitas, located on the western part of Santiago's province.

On Monday night, 18 inmates were confirmed as dead and 59 were injured in the fire.

PM Khan says 2020 will be year for public relief

2019: a busy year for politics with little work done

Freezing winds grip Karachi as winter intensifies

Baluchistan lawmakers unseated

The picturesque dyelike town of Chakwal was bathed in the shadows of yellow and red as the last of 2019 saw behind the festive Prelingsh Margalla Hills, heralding the new year and new decade. The tranquility, however, has been the hard work of last 12 in the Baluchistan, where hundreds of residents, including Maulana Fazlur Rehman, head of the political seat of the country, where rabble-rousers stirred up the political seat of the country, during the year 2020. The tranquility, however, be- came a no-option for the political parties to fully focus on the idyllic Margalla Hills, heralding 2020.

The PPP and the PML-N initially offered token support, but when thousands of the crowd's corruptions castigated as blacklist- ing, they sent away the criticism.
China’s polar fascination isn’t limited to the Arctic. On the heels of Antarctica, China has set up research stations and a research icebreaker, the Xue Long, in the Southern Ocean. It has also established a permanent scientific research station on Siple Station, Antarctica.

China’s growing interest in the Arctic and Antarctic is not new. In 2007, China dispatched a submersible to the bottom of the Arctic Ocean, and claimed the Arctic as its own. It has also responded to Arctic military bases being built by other countries. In late December, it sent the Kormorant of its Icebreaker fleet to the Antarctic to claim the Kormorant for itself. Putin insists that at least a quarter of the world’s undiscovered oil and natural gas lies beneath the Arctic Ocean.

China, however, has been part of the Arctic conversation, even though it doesn’t have the same say as the Arctic states—the US, Russia, Canada, Denmark (via Greenland), Finland, Iceland, Norway and Sweden. While its Arctic law recognizes uncertain sea claims that the Arctic countries have based their claims on. But China is a vocal advocate for the rights of Arctic nations to shelve the ban. In a few decades, will the aerial view of the Arctic be limited to the ice veins and diamond and oil, are simply locked away for now. As such, China’s interest in the Arctic is not just about exploiting its natural resources but also about its strategic importance.

China’s overall investment in the Arctic rounds out to about $90 billion, which includes establishing research stations, building icebreaker ships and establishing polar research outposts in Europe, and investing heavily in mines in Greenland and Nunavut, Canada. China’s interest in the Arctic is not limited to the Arctic. On the heels of Antarctica, China has set up research stations and a research icebreaker in the Southern Ocean. It has also established a permanent scientific research station on Siple Station, Antarctica.

Beijing’s overall investment in the Arctic rounds out to about $90 billion. The future of space travel: Where are America and Europe headed?

By Simon Johnson

WASHINGTON, DC — America has had a head start in space travel. Since the late 1950s, the US has, of course, faced a number of challenges, such as the EU also contributing to the establishment of a new generation of space companies. But the major disappointment in the US has been the lack of progress in the development of new space technologies, which has led to a number of problems, such as the failure to develop the needed infrastructure. In any case, the rocket and the space station, as mentioned, are likely to be maintained.

In any case, the rocket and the space station, as mentioned, are likely to be maintained.

The system that emerged served a number of purposes, including the following:

- The model was a disaster long in the making. The top-down changes that had created the basic system of regulations governing space use and business led to an over-reaction to the competition for space (see above).
- The system is likely to deliver consistently mediocre growth and extreme income inequality. Over time, a weaker economy implies a loss of opportunities, which is a negative for the country.
- There is a way to undo the most important changes that were enacted in the 1970s. The Democratic Party presidential nominating contest has made evident, many rich people adamantly oppose something for the example, a proposal to make Google pay less in taxes.
- Critical infrastructure is involved, he said.

Al Gharafa Sports Club students take part in green drive

As part of the ongoing Qatar Beautification and Our Kids Planting Trees campaign to plant a million trees, 43 students from Al Gharafa Sports Club joined hands with the Public Works Authority (Ashghal) to plant trees at Al Shamal Road Enhancement Project.

While taking part in the campaign, Khalid Alshahri, Al-Qaswa Central Municipal Council, said that he is proud to see the children planting trees and contributing to one of the pillars of Qatar National Vision 2030 by conserving the environment.

Haya Al-Salhi, general supervisor of the Spring Activity, held at Al Gharafa Sports Club, said that they always urge the children to conserve the environment. The Al Shamal Road Enhancement Project by Ashghal includes planting 4,254 trees and beautifying about 600,000sq m land.

The committee works under the Ministry of Municipality and Environment (MME), in co-ordination with several ministries and other entities of the State such as Central Municipal Council, Ministry of Urban Development, Ministry of Transport and Communications, Ministry of Culture and Sports, Qatar Museums Authority, Qatar Railways Company, Qatar Development Bank, Qatar Foundation and Private Engineering Bureau.

The committee is responsible for the major tasks including the construction of central public areas, pedestrian and bicycle lanes for pedestrians and bicyclists, development of the Doha Corniche, development of central parks and landscaping, which will greatly help in reducing the temperatures in cities.

Marmi Championship starts at Sealine

The 11th International Falcon Festival ‘Marmi Championship’ starts at Sealine on February 1. Falconers converged on the venue before dawn, throwing light on the local heritage through various shows and important events that highlight the cultural interests of Qataris by arranging competition and reducing the emission of CO2 through minimised consumption and conservation of energy resources.

It focuses on the provision of more public transport options amounting to reduced use of private cars and improves landscape through clean and safe transportation. It also works for ensuring safety and security of residential areas.

Children and adults alike get a glimpse of the world’s latest clothing and ready-to-wear fashion at Al Gharafa Sports Club, with a series of fashion shows, including one est couture and ready-to-wear collections for children, makeup masterclasses with celebrity artists and influencers, and well-crafted Chinese New Year celebrations. Mall activations, nightlife entertainment, a plethora of free stage shows, and a host of live music options abound with musicians playing a plethora of free stage shows, and a host of live music options, including characters such as Mickey and Minnie Mouse, as well as a free shopping transfer tour.

Shop Qatar to kick off 2020 with discounts, prizes, shows

Shop Qatar, Qatar Airways Holidays is offering 1.5 million on request. In addition, the Ministry of the Interior is offering visas to visitors from both Oman and Kuwait, which include return flights, two nights (plus breakfast) for promotions which, at the time of this printing, Shop Qatar is made possible through official telecommunications partner Valentine, hospitality partner Katara Hospitality and the Ritz-Carlton, as well as luxury partner, Al Jazzar.
