The Ministry of Education and Higher Education announced the visit of officials to several schools in Doha. The officials visited several schools to ensure the implementation of strategies and programs to support students with special needs. The visit aimed to ensure that all students receive equal opportunities.

Partial closure on Al Sadi Street

The Ministry of Municipality and Environment (MME) announced the partial closure of Al Sadi Street from Al Amadi Street to Doha Street to allow the construction of a pedestrian area. The partial closure is expected to reduce traffic congestion and improve pedestrian safety.

Hawksbill turtle protection efforts lauded

The Ministry of Municipality and Environment (MME) highlighted the efforts made to protect the endangered hawksbill turtle. The ministry has implemented several measures to protect the turtles, including the establishment of marine protected areas and the enforcement of strict regulations. The efforts have been praised by conservationists and the authorities.
The basic understanding of a caesarean section and the route to recovery

By Rose Ainsworth

A caesarean section, often shockingly known as a C-section, is when a surgeon cuts you in half to deliver your baby. A C-section is a major operation. Your uterus and your baby’s head and body are clamped and you are administered a general anaesthetic. If you still have pain, you are given a pain medication. A C-section is a major operation with a recovery time of about 6 weeks. It is not uncommon for women to feel physically and psychologically exhausted after such an operation. However, many women find it challenging to break out of this bond. It is often complicated by a lack of support at home, especially during the postpartum period. The main purpose of a C-section is to save the mother and baby’s lives. However, it can be emotionally and physically challenging for many women. It is important to discuss your options with your healthcare provider before surgery. You can ask about different types of pain medications and therapies that can help you feel better.

When the world stood still for a moment

By Rose Ainsworth

When Facebook asked all its employees to “slow down” on Monday, they made a conscious effort to break away from the digital world and spend more time enjoying the present moment. They were encouraged to explore new hobbies, connect with friends and family, and engage in meaningful activities. This initiative was part of a broader trend towards mindfulness and mental well-being. It is a reminder of the importance of taking time to pause and reflect on our lives.

Fashionists!

By Dolly White

The fashion industry is a constantly evolving field, with new trends and styles emerging every season. Each season, designers present their collections to the public, showcasing their visions for the future of fashion. This year’s collections were no exception, with designers exploring a wide range of themes and styles. From minimalist to maximalist, sustainable to luxury, there was something for everyone. The runway was a stage for designers to showcase their creativity and boldness, pushing the boundaries of what is considered fashionable.

Wellness Meal Plan

By Turki Alshibli

Strawberry smoothies

Ingredients

- 1 cup strawberries
- 1 cup almond milk
- 2 teaspoon honey
- 1 scoop collagen

Method

1. Blend all ingredients until smooth.
2. Serve immediately.

The smoothie is a delicious and healthy treat, providing a good source of antioxidants and vitamins. It is also a great way to start the day with a natural energy boost.

Children with healthy diet have best mental health

By Andrea Gregory

The link between diet and mental health is becoming increasingly evident. Studies have shown that a healthy diet can have a significant impact on mental health, reducing the risk of developing mental health disorders and improving overall well-being. A healthy diet is rich in fruits, vegetables, whole grains, lean proteins, and healthy fats. These foods provide the body with the necessary nutrients for brain function and mental well-being. Additionally, a healthy diet can help reduce the risk of developing chronic diseases, such as diabetes and heart disease, which can have a negative impact on mental health.

Holistic | Wellbeing

The title of the article is Holistic | Wellbeing, indicating a focus on holistic and wellbeing practices that aim to improve overall health and well-being.
Dancing with the debt ceiling

In 2011, when then-vise chair of the US Federal Reserve, Janet Yellen, called her colleagues that drama around the federal government's debt ceiling "unsurprisingly turned out to be just theater," Charles of the.deepEqual, one might add. As America goes, the debt ceiling debate is shaping up to be a tragedy for the economy.

To understand the dynamics of the debt ceiling, recall the original. The statute creating it was adopted in September 1939, with a $23 billion (in 2019 dollars) borrowing limit, in an effort to help finance US entry into World War II. It was designed to assure opponents of government borrowing that there were limits on how much the country could owe.

Today, Congress has broader power to micro-manage borrowing by the Treasury, something that was impractical in wartime. As legislation now regards this power of the president. But to placate those who oppose any increase in monthly spending, both the German-Americans who opposed going to war with Germany and Irish-Americans opposed to the US war effort fought for the same reason.

Those old 'not forgotten' provisions from more than a century ago created a potent tool in the hands of today's lawmakers.

Until now, Congress has successfully avoided incurring the worst. Federal debt has not crossed the per capita debt limit, and Democrats and Republicans agreed to suspend the debt ceiling just a week before it was due to hit.

But if the debt ceiling is breached, there is likely to be a default. And that could have serious implications for the global financial stability.

Uncertainty, as the Covid-19 crisis has reminded us, is what investors dread the most.

The debt ceiling is a tool that governments use to control the size of their expenses. When the government spends more than it earns, it has to borrow to balance the budget. The debt ceiling is the maximum amount of debt that the government is allowed to issue.

It is not the size of the debt that matters, but how fast it is growing. When the debt ceiling is reached, the government is unable to borrow more money.

The federal debt has grown rapidly since the Covid-19 pandemic, as the government spent trillions of dollars on stimulus packages and other measures to support the economy.

The debt ceiling is set at $31.4 trillion, which is expected to be reached in early 2023. If the ceiling is not increased, the government will no longer be able to borrow money to pay its bills, which could lead to a default.

The Federal Reserve would have to decide whether to continue to support the economy by purchasing Treasury bills and other government securities. If not, the economy could enter a recession, with interest rates soaring and economic growth slowing.

The debt ceiling is a political issue because it requires congressional action, and it often becomes a battleground between the two major political parties.

The next debt ceiling vote is expected to be in November 2023, just before the US presidential election. The outcome of that vote could have significant implications for the economy and financial markets.
**Africans party elections posters spark outrage**

South Africa’s largest opposition party has alleged that posters promoting its candidates are being hung up apathetically in some townships in the Western Cape, prompting the party to threaten to consider legal action.

The Democratic Alliance (DA) says it has received complaints from some DA members across the province that their posters promoting candidates are being hung up apathetically and that some were damaged.

The party says it has raised a complaint with local municipalities, adding that it is considering legal action.

**Philippines elections**

Philippine stocks were up Monday morning on a strong overnight rally by Wall Street, despite the Philippines' own political turmoil.

The local bourse opened higher as investors shrugged off a weekend of political drama, including the resignation of President Rodrigo Duterte, who has been a key ally for the country's leaders.

**Covid-19 impact worsening India educational divide: UNICEF**

India’s educational divide is worsening, with more students finding it difficult to access quality education due to the pandemic, according to a new UNICEF report.

The report, released on Monday, highlights the challenges faced by children and young people across the country, with many schools remaining closed due to the ongoing health crisis.

The UNICEF report estimates that an estimated 50 per cent of children in India have access to remote learning, compared to 80 per cent in the early months of the pandemic.

**Lanka probe president’s niece over Pandora claims**

A Sri Lankan probe has arrested a niece of the country’s president,Gotabaya Rajapaksa, on corruption-related charges.

The niece, Kusumapriyda Rajapaksa, was detained under the Prevention of Money Laundering Act, the police said.

**Johnson voices regret of UK’s economy**

Britain’s Prime Minister Boris Johnson has expressed regret that the UK’s economy has not recovered more quickly from the Covid-19 pandemic.

Johnson said the country’s economic recovery had been slower than he had hoped, but he added that the government had taken action to protect jobs and businesses during the crisis.

**Philippines stock market rallies amid global gains**

The Philippine stock market rallied on Monday morning, following gains on Wall Street and in other regional markets.

The local benchmark index, the Philippine Stock Exchange All-Share Index, was up 1.43 per cent in early trade.

**Four hurt in shooting at Texas high school**

Four students were injured in a shooting incident at an El Paso high school on Monday, authorities said.

The shooting occurred at an inner-city El Paso high school, where police said a 17-year-old student opened fire.

**Cruise misses concert as cruise ship docks in Florida**

A cruise ship that was scheduled to dock in Florida has been denied entry due to concerns about the ongoing Covid-19 pandemic.

The Norwegian Breakaway, which was due to dock in Miami on Monday, was denied entry due to concerns about the spread of Covid-19 in the country.

**Two men shot dead in police shootout in Australia**

Two men have been shot dead in a police shootout in Sydney’s west on Monday afternoon.

The incident occurred in the suburb of Blacktown, where police were responding to reports of a armed ,,violent assault," police said.

The men, who were dressed in black and carrying guns, were killed after a short exchange of fire.

**Indonesia seizes nuclear talks to restart soon**

Indonesia says it is preparing to restart nuclear talks with the International Atomic Energy Agency (IAEA) to discuss the country’s nuclear energy program.

The talks were last held in 2013, when Indonesia and the IAEA reached an agreement to begin discussions on the country’s nuclear energy program.

**Cruise threats on the horizon for Mediterranean travelers**

A cruise from the Mediterranean is facing potential threats from the spread of Covid-19, prompting some travelers to consider alternative travel options.

The cruise, which is set to sail from Barcelona on Tuesday, has been warned about the potential for outbreaks and has advised passengers to consider alternative travel options.

**Safeguarding nuclear talks**

The International Atomic Energy Agency (IAEA) is preparing to resume nuclear talks with Indonesia, which is preparing to restart its nuclear energy program.

The IAEA has previously warned that the Indonesian government had not taken adequate steps to safeguard its nuclear facilities.

**Philippines labor market Levant (European Union) reports:**

The Philippines’ labor market is improving, with more jobs becoming available, according to the European Union’s economic and social committee.

The report, released on Monday, highlights the potential for more job creation in the country, with the rate of unemployment decreasing.

QM to present Abloh’s first exhibition in Mideast
‘Virgil Abloh: Figures of Speech’ will be on view at the Fire Station from November 5 to March 31, 2022

Embassy marks centenary of Polish sci-writer Stanislaw Lem

'Iconic Limousine Design' contest

Green Turtle on Fire is on view at the Fire Station. The exhibition is presented by Qatar Airways, Qatar Airways, Barakat, and Oceana.

Qatar Museum (QF), the nation’s leading cultural institution and the main platform for arts and culture in Qatar, presented its programme for the third quarter of 2022, highlighting the national and international exhibitions and programmes available at its three locations: the Fire Station, the National Museum of Qatar and the Museum of Islamic Art. This period marks the beginning of a new series of programmes and initiatives, with a focus on Mideast artists and artists of African descent, and the celebration of major anniversaries.

Qatar Museum’s activities for the third quarter of 2022 include exhibitions, talks, workshops, and events, in addition to the Qatar National Arts Festival, a biennial event that showcases the country’s cultural diversity and supports local artists.

The Qatar National Arts Festival is one of the most anticipated cultural events in the region. It is a platform for artists to showcase their work, connect with the community, and celebrate the rich cultural heritage of Qatar.

The Fire Station will present 'Virgil Abloh: Figures of Speech', an exhibition of works by the late American fashion designer and artist. The exhibition, which runs from November 5 to March 31, 2022, is a celebration of Abloh’s contributions to the worlds of fashion, design, and art. The exhibition features a range of works, including drawings, installations, and multimedia pieces, all of which explore Abloh’s innovative and boundary-pushing approach to design.

The Fire Station is also hosting an exhibition of works by Polish sci-fi writer Stanislaw Lem, whose centenary is being celebrated. The exhibition, titled 'Stanislaw Lem: The Man, his Work, and his Ideas', showcases a selection of Lem’s books, as well as a range of multimedia installations that explore his themes of science, technology, and human nature.

Another exhibition at the Fire Station is 'Iconic Limousine Design', a competition open to students and young designers. The competition aims to encourage innovation and creativity in the automotive industry, with the winner receiving a scholarship and a chance to see their design come to life.

In addition to these exhibitions, the Fire Station will host a series of workshops and talks, including a talk on the art of animation and a workshop on art making for children. These events are designed to engage the community and inspire creativity.

The National Museum of Qatar will present a special exhibition of works by the late American artist Francesca Woodman, who is known for her innovative approach to photography and her exploration of identity and self-portraiture.

The Museum of Islamic Art will present a special exhibition of works by contemporary artists from the Middle East, showcasing their unique perspectives on contemporary issues and their creative approaches to traditional and modern art forms.

Qatar Museum continues to be a leader in the cultural landscape of Qatar, providing a platform for artists and audiences to engage with art and culture in a meaningful way. The organization’s programmes and initiatives aim to foster a vibrant and diverse cultural scene, while promoting the country’s cultural identity and heritage.

For more information on Qatar Museum’s programmes and initiatives, visit the website or follow them on social media.
