**Minister lauds workers’ contributions to Qatar’s development**

He said the Ministry of Municipality and Environment acknowledged the workers’ efforts and touted the deep gratitude from the workers and employers of the country. He said the ministry would be the first to launch the platform for the workers’ claims.

Dr al-Kuwari assured the public that the platform would be an indicator for the workers. He said this day is the culmination of the implementation of the new medium of the workers’ complaint and the complaints through the phones, websites and social media.

He said the ministry has been working on the complaints of workers, and the ministry is working in cooperation with the workers and the public to ensure the protection of workers’ rights. He said this is the achievement of the workers and the ministry’s efforts towards the protection of the workers.

**Restrictions, vaccination bring down Covid cases**

By Joseph Vergnes

Despite the Covid-19 cases in Qatar have been declining steadily due to the concerted measures and the vaccination programme launched by the Ministry of Public Health (MoPH) and postponing the new measures in light of the situation that shows effect of the measures.

All the measures against Covid-19 have led to the reduction of the number of cases, and the decline of the number of cases is significant when we are comparing the number of cases in Qatar during the last year.

Dr al-Bayat said 86% of people over 60 years have received at least one dose. Now about 70% of those over 60 have received at least one dose of the vaccine. More than half a million people are fully vaccinated. Qatar has received at least one dose of the vaccine. The vaccines have been administered in various places around Qatar, including Souq Waqif and Msheireb units at Souq Waqif and Msheireb.

He said the Ministry of Municipality and Environment has launched a platform for workers’ claims, and it is the first platform to be launched in the country. He said the ministry has been working on the complaints of workers, and the ministry is working in cooperation with the workers and the public to ensure the protection of workers’ rights. He said this is the achievement of the workers and the ministry’s efforts towards the protection of the workers.

Ooredoo Shows Support for Qatar’s Workers on International Labour Day

• Partnership with Ministry of Municipality and Environment to Honour Workers

• Sheikh Nasser Bin Hamad: “Workers contribute immensely to the country’s development”

• 100 Recharge Cards Distributed to Workers

• Vaccine Initiative at QNCC and Distribution of Food Supply Packs

Ooredoo has announced details of an initiative designed to show support for Qatar’s many valued workers, and thank them for their contribution to the country’s progress, in honour of International Labour Day.

In partnership with the Ministry of Municipality and Environment (MME), Ooredoo organised delivery of 100 recharge cards to MME workers to enable them to stay connected to family friends and loved ones with data and calling minutes.

The second activity in the initiative, set for the coming week, will be distribution of food supply packs, containing essential meal preparation items, to MME workers.

To support the Qatar government’s fight against COVID-19, Ooredoo also organised an important and gratitude poster campaign at the dedicated COVID-19 vaccination centre at Qatar National Convention Centre. Patterns on display thanked vaccinated workers for having had the vaccine, and included encouragement for those yet to have the vaccine to do so at earliest possible.

In addition to the initiative, Ooredoo is also running promotions aimed at workers who regularly send money home to loved ones. Ooredoo Money customers can win up to QR5,500 daily simply by visiting a MoneyGram Cash Pick-up Transfer via their Ooredoo Money app, and can earn up to QR224 as a reward for referring friends to use MoneyGram Cash Pick-up via Ooredoo Money. Customers sending their first international transfer with MoneyGram Cash Pick-up via Ooredoo Money will also earn QR50 cashback.

Sheikh Nasser Bin Hamad Bin Nasser Al Thani, Chief Commercial Officer at Ooredoo, said: “We’re delighted to be working with the Ministry of Municipality and Environment on this tangible initiative. Qatar is at the forefront of countries currently welcoming large numbers of expatriate workers to meet the needs of development plans at all levels; these important workers, who come from many different parts of the world, contribute immensely to the country’s development. We’re proud to have the opportunity to show them our appreciation and thanks for all their efforts.”

This initiative follows similar such programmes in previous years, where Ooredoo has stepped up and committed to programmes of support for Qatar’s workers to commemorate the globally celebrated International Labour Day.

Endowments minister to inaugurate session of Ramadan programme

The General Administration of Endowments at the Ministry of Endowments and Islamic Affairs has announced a partnership with the Heart Hospital of Hamad Medical Corporation (HMC) to support and assist critical cases of needy heart patients with QR250,000.

The announcement was made by Sheikh Dr Khalid bin Mohamed bin Khalifa Al Thani, Minister of Endowments and Islamic Affairs, and Dr Abdul Wahed Al-Mulla, consultant cardiac surgeon at HMC, during a press conference.

The director-general expressed pleasure at the continuous development of the programme during the month of Ramadan since 1435 AH. He added that the 7th edition of the programme highlights the achievements made by Qatar in the field of water sustainability, rationalisation, desalination and hands cleaning facilities.

The programme discusses the value of water from the perspective of health, access to safe drinking water and sanitation services, noting that various aspects of the value of water were evident during the Covid-19 pandemic as more than 3bn people were affected by water-related challenges and other common issues.

Qatar, Unesco host virtual seminar on ‘Valuing Water’

Qatar National Commission for Education, Culture and Science concluded a sub-regional virtual seminar on the occasion of the launch of the Units of the World Water Development Report 2021 (UN-WWDR 2021) entitled ‘Valuing Water’. A number of institutions in the State, Unesco Association and Sulaiti, the Qatar National Commission for Education, Culture and Science concluded a sub-regional virtual seminar on the occasion of the launch of the Units of the World Water Development Report 2021 (UN-WWDR 2021) entitled ‘Valuing Water’. The seminar which was organised in co-operation with the Unesco Regional Office for the Gulf States and Yemen and its Sub-regional Office in Doha and Qatar University in a speech on the occasion, Director-General of Qatar National Commission for Education, Culture and Science Dr Hamda Hassan al-Sulaiti said that the United Nations International Water Assessment Programme (UN-WWAP) took part in the seminar which was organised in co-operation with the Unesco Regional Office for the Gulf States and Yemen and its Sub-regional Office in Doha and Qatar University. She noted that the seminar comes in the context of Qatar’s keenness on the fruitful international co-operation and confirms its commitment to confronting water-related challenges and other common issues.

Therefore, the Commission organised this important seminar in order to engage all stakeholders in the sector, the policies and the recommendations included in the report, providing an overview on the current situation of water and its challenges and opportunities at the local and sub-regional levels.

Dr al-Sulaiti highlighted the achievements made by Qatar in the pursuit of the UN Sustainable Development Goal 6 (water security) and the importance of the Sustainable Development Goal 6 to achieve water security, and indicated that the State is keen on the fruitful international co-operation and confirms its commitment to confronting water-related challenges and other common issues.

Meanwhile, Vice-President of Qatar University for Research and Graduate Studies Dr Maram Al-Masoud stressed the importance of the seminar as an opportunity to make the commitments and adopt cooperative policies and programmes to promote the value of water and ensure its availability for the coming generations.

She noted that the seminar comes in the context of Qatar’s vision to achieve impactful research in the field of sustainable water management, desalination, treatment and support for its sources, in line with the vision of Qatar which places water security at the top of its priorities.

Engineer Alaa Al-Ali, advisor to the President of Qatar General Electricity and Water Corporation (Kahramaa) for Water Affairs for the Gulf States and Yemen, and its Sub-regional Office in Doha and Qatar University. He highlighted the important role of Kahramaa in ensuring access to water and sanitation for all, noting that the state is keen on the fruitful international co-operation and confirms its commitment to confronting water-related challenges and other common issues.

MoPH reports 650 new Covid-19 cases

The Ministry of Public Health and Population (MoPH) reported yesterday that the number of Covid-19 cases rose to 18,124, of which 107 were new, raising the total number of infections to 18,017. A total of 17,367 of the infections are active cases, while 644 are recoveries. The Ministry confirmed that 731 people have recovered from Covid-19 in the last 24 hours, bringing the total number of recoveries to 16,373. The number of people discharged from hospitals decreased by one to 7,659, while the number of patients in isolation has increased by one to 54. A total of 105 men and 137 women are hospitalised. MoPH said that the number of patients with Covid-19 in intensive care has decreased by one to 97.

T The designated authorities received seven people who violated the health regulations. They contacted, following which they are being processed. The designated authorities recorded three cases of violations related to the observation and isolation measures of people who have been vaccinated against Covid-19. The designated authorities also recorded 125 cases of violations related to social gatherings and 15 violations related to the operation of social clubs.

MoPH reported that among the new cases, 644 were recoveries. A total of 17,367 of the infections are active cases, while 644 are recoveries. The Ministry confirmed that 731 people have recovered from Covid-19 in the last 24 hours, bringing the total number of recoveries to 16,373. Corporate entities back Qatar Charity initiative

Qatar Charity (QC) yesterday launched its 5% programme, launched by QC to create extra funds to help low-income families and students in Qatar during Ramadan. Al-Emadi reported a"significant response" from these companies, with 12 of the total 17 companies participating in the initiative as part of their responsibility towards the community. In addition, QC and Qatar Post agreed to extend the 'Hope Box' programme for another year. The announcement was made by QC's president, Jassim Mohamed al-Emadi, during a press conference yesterday. Al-Emadi explained that the programme, which was launched in 2019, aims to contribute to the income and education of students and families in Qatar, to support them in the humanitarian conditions currently confronting the country.

Carnegie Mellon team wins QSE competition

A team of students from Carnegie Mellon University Qatar (CMU-Q), a Qatar Foundation partner university, took top three honors in the Qatar Stock Exchange (QSE) Financial Education Competition.

The competition, which was held over a two-week period, was divided into two parts. The first part consisted of written exams and the second part consisted of a case study. The CMU-Q team, which was led by Farooqi, won the competition against teams from Qatar University and Avenços.

Dr. Saif bin Ali Al-Ghamdi, a member of the QSE Board of Directors, said that this competition provided a platform for students to showcase their skills in financial education.

Farooqi, who teaches financial markets, said that the competition was a great opportunity for students to gain real-world experience.

The team members were Abraham Abraham, a senior in the Business Administration Program, who graduated with the Class of 2021; Farooqi, who teaches financial markets; and Abraham, a senior in the Business Administration Program, who graduated with the Class of 2020.

Abraham said that the team worked hard to prepare for the competition and that they were proud to win.

The QSE Financial Education Competition is an annual event that aims to raise awareness about financial literacy and education among students.

The team received an award for its efforts.

India expands faltering vaccine drive as cases soar

People suffering from the coronavirus disease (COVID-19) receive medical treatment inside a government mobile hospital in Mumbai, India, May 2, 2021. At least 400,000 new cases in 24 hours were reported worldwide on Friday, bringing the tally to over 150 million, according to a Reuters tally of daily reports. By Claire Mollenkamp

India’s capital New Delhi, has imposed a lockdown-style restriction on the movement of people, and the government has ramped up its vaccination programme, as concern grows over the virus’s Delta variant spreading across Asia.

New Delhi (Reuters) - India, the world’s second most populous country, reported record infections and deaths on Sunday, with the number of new cases falling below the 400,000 mark for the first time this month.

The 7.8 million daily infections were 21% fewer than the previous day, but they were still far above the peak of 240,000 in early April, indicating that the virus is still spreading.

The number of deaths also fell, with 3,000 reported, down from 4,313 the day before. The virus has now claimed more than 400,000 lives in India.

India’s tip of the iceberg

The vast majority of new cases were reported in the densely populated state of Maharashtra, including the financial capital, Mumbai.

Andhra Pradesh, the state with the second-highest number of cases, reported 7,081 new infections.

The southern state of Tamil Nadu, which has been fighting outbreaks in recent weeks, reported 3,410 new cases.

The government has revised its forecast for new infections, raising it from 300,000 to 400,000 a day, to 400,000-600,000 a day.

India has reported more than 25 million infections since the pandemic began last year.

The country’s vaccine drive has been slow, with just 18% of the population fully vaccinated.

India has received millions of doses of the AstraZeneca vaccine from Britain and the Serum Institute of India, the world’s biggest vaccine maker, under a deal struck by the government.

The country also生产和储备了数亿剂的疫苗，包括科兴和科兴的合作伙伴阿斯利康的疫苗。印度政府与英国和印度的 Serum Institute of India 达成协议，后者是世界上最大的疫苗生产商。
Biden administration sets new policy on North Korea

T he US officially announced that it would be withdrawing its military and cutting its staff in Afghanistan next month, in a surprise move that comes despite fighting raging in the war-torn country.

The Biden administration said it would be cutting US forces in Afghanistan next month, marking the end of America’s longest war.

The announcement came after a senior administration official said that the withdrawal was already underway.

With the withdrawal of US troops, the Taliban has become the de facto ruler of Afghanistan, with the US military having been there for more than 20 years.

The Biden administration said it would complete the withdrawal by the end of August, bringing an end to an American military presence that dates back to 2001.

This is a new Academy, one that embraces a new approach that is open to and enables creating new possibilities and conceptions of excellence, said the Academy’s acting president, Ken Poelman.

Poelman added: “This is a new Academy, one that is open to creating new possibilities and conceptions of excellence.”

Poelman also announced that the academy would be open to all students, regardless of background or nationality.

The announcement comes amid ongoing concerns about the future of the arts and entertainment industry.

The academy has faced criticism for its treatment of female and minority students, and for its handling of sexual harassment allegations.

Poelman said the academy would be open to all students, regardless of background or nationality, and that it would be “dedicated to fostering diversity and inclusivity.”

Poelman added: “We believe that this new approach will enable us to create a more inclusive and equitable community.”

He also announced that the academy would be focusing on diversity and inclusion in all of its programming.

Poelman said: “We are committed to creating a community that is welcoming and inclusive to all.”

Q1 data show Qatar firmly on recovery path

Early vaccine rollout and rise in demand and prices of petroleum products are expected to favour Qatar’s economy and help it maintain growth trajectory this year. Qatar’s economy will rebound in the current financial year, boosted by robust investment in global transition Programmes and the increase in oil demand and prices, is expected to recover from the effects of the Covid-19 pandemic in 2021 with non-oil growth at 2%, the Ministry of Finance said in a recent report.

According to the Ministry of Finance, Qatar’s economy contracted in 2020 to the recorded real GDP of -5.7%. The contraction was primarily driven by the Covid-19 pandemic outbreak and weak demand during 2020.

Ministry of Finance data showed that expenditure on major projects in the country during the first quarter (Q1) of this year totalled about QR5.6bn, or 20.8% of the 2021 budget. In addition, newly awarded projects during the first quarter of 2021 amounted to about QR4.8bn, an export issued by the Ministry said.

The total public debt remained constant, maintaining the same level and split of 2020 year-end and at QR81.6bn. There was no debt increase during the quarter, it said.

The total revenue for Q1, 2021 amounted to QR45.2bn driven by the recovery in oil prices. On the other hand, expenditure QR45bn has been recorded.

As a result, the budget balance recorded a minor surplus of QR0.5bn. On presentation, the 2021 state budget had estimated revenue of QR32.8bn and expenditures of QR33.8bn. The deficit of QR0.6bn from the 2021 budget, which was based on a QR53 price. The total public debt remained constant, maintaining the same level and split of 2020 year-end and at QR81.6bn. There was no debt increase during the quarter, it said.

The total revenue for Q1, 2021 amounted to QR45.2bn driven by the recovery in oil prices. On the other hand, expenditure QR45bn has been recorded.

As a result, the budget balance recorded a minor surplus of QR0.5bn. On presentation, the 2021 state budget had estimated revenue of QR32.8bn and expenditures of QR33.8bn. The deficit of QR0.6bn from the 2021 budget, which was based on a QR53 price. This was divided between major projects at was QR8.5bn, which includes those for new projects along with ongoing development work in various sectors.

Qatar’s non-oil sector revenue has been surging and accounted for more than QR4bn in the first quarter of 2021, a report issued by the latest government figures.

Thousands of workers rally on May Day in Paris

Labour Minister Yolanda Diaz as well as representatives of the three left-wing parties prayed for the victims of coronavirus and demanded they be allowed to hold mourning ceremonies.

The crowd of mostly young people, designed to defy distancing rules.

Police said several hundred people had been arrested and 700 were brought to hospitals for treatment.

In Brussels, tear gas was fired in a park as police tried to disperse a protest.

Thailand’s problem with Tehrik-e-Taliban Pakistan is made up of thousands of Afghan refugees, said a Reuters witness.

The restrictions will come into force on May 16, 2020, said Pakistan’s Civil Aviation Authority said in a statement.

Pakistan will reduce the number of flights into and out of its major cities to 5 per day, Prime Minister Imran Khan announced on Thursday.

All international passengers will also be required to undergo a 14-day quarantine period on arrival before continuing their journey.

The government said it would allow only 50% of the total capacity of all international flights.

The budget would be used to boost social spending, which makes up about 35% of GDP.

The government said it would allocate Rs 350 billion, or 1% of the country’s GDP, to finance the scheme.

The government said it was not yet ready to give a positive response to the idea of a two-day holiday.

The government has said it will not vaccinate its citizens against the virus.

Pakistan has reported 97,325 cases of coronavirus and 2,013 deaths.

Local communities invited to help India Covid relief initiative

Qatar Airways is supporting international efforts to tackle the Covid-19 crisis in India by inviting local communities in Qatar to donate medical supplies to help patients suffering from the disease. The airline said it is supporting international efforts to tackle the Covid-19 crisis in India by inviting local communities in Qatar to donate medical supplies to help patients suffering from the disease.

The GWC and Qatar Airways together with the Qatar Goodwill Airline (QGA) are proud to support India's Covid-19 surge. India are being used to help the country.

Qatar Airways has explained how it will accept and distribute donations for this initiative.

The items accepted for donation under the QR Cargo “WeQare” initiative, are the following as per the package:

- **Oxygen cylinders**: Cylinders to be made of aluminium alloy or steel, with a maximum cylinder net weight of 15kg. The working pressure of the cylinder must exceed 150% of the test pressure, but not exceeding five times the cylinder's test value, or contact the manufacturer or sales personnel.
- **Medical oxygen compressors**: The test pressure of the compressor must exceed the standard test pressure.
- **Face masks**: There are many patients who have been dependent on blood and blood products. Transfusions are done in those who are in need of oxygen, and the distribution of oxygen cylinders must be done with extreme caution.
