Amir sends message to French president

His Highness the Amir Sheikh Tamim bin Hamad Al-Thani sent a written message to French President Emmanuel Macron expressing his deep condolences following a highly sad and bloody terrorist attack in Nice that took the lives of many people on Thursday, May 26, 2022.

In his message, the Amir conveyed his deep sympathies to the people of France and extended his sincere condolences to the families of the victims of this attack, expressing a strong message of solidarity to the French people. He also reiterated Qatar’s strong condemnation of all forms of terrorism, and assured of Qatar’s firm support to the French people.

Qatar supports UN-backed peace process in Libya

FM holds talks with Libyan leaders

His Excellency the Deputy Prime Minister and Minister of Foreign Affairs Sheikh Abdullah bin Nasser bin Khalifa Al-Thani met with the Chief of the Libyan Interim Government, Abdulhamid Dbeibah, in Tripoli, the capital of Libya, yesterday. The meeting was held with the aim of discussing the political situation in Libya and ways to promote the implementation of the Skhirat Agreement and the New Deal for Libya, as well as promoting economic and security cooperation.

Qatar and Libya are committed to the principles of the Two-State Solution and the implementation of the Skhirat Agreement, as well as the New Deal for Libya, in order to achieve a peaceful, stable, and prosperous Libya.

QRCs office in Gaza resumes food distribution, medical aid

Qatar's Red Crescent Society (QRCS) has resumed its humanitarian relief operations to provide food aid and medical services to the people in Gaza, after a temporary halt due to security reasons. QRCS, along with the United Nations Relief and Works Agency (UNRWA), has resumed the distribution of food aid and medical services to the Palestinian people, including the distribution of food baskets and the provision of medical care.

Ashghal completes mainworks of Al Khor Health Centre

Monumental works have been completed at Al Khor Health Centre in Doha, which aims to enhance emergency medicine services in the area. The project includes the construction of a new clinic building, an emergency room, and other services that will enhance the healthcare services in the area. The Centre is expected to be completed in the near future.
Envoy hails strong Qatar-Germany ties

The ambassador said Qatar has implemented wide-ranging reforms to strengthen labour laws and to increase protection for foreign workers, which made Qatar occupy a leading position in the region.

Over the past five years, Qatar has put into practice a series of laws and regulations to implement the principles of the Qatari Constitution in the society, which can be seen in the following areas:

1. Labor law: The Qatar Ministry of Labor and Social Development has issued a new labor law that provides for the rights of foreign workers and their families.
2. Education: The Qatar government has implemented a new education policy that promotes the rights of women and girls.
3. Health: The Qatar government has implemented a new health policy that provides for the rights of all citizens, including foreign workers.

In conclusion, the ambassador said that Qatar is committed to implementing the principles of the Qatari Constitution and to protecting the rights of all citizens, including foreign workers.
The government of the Kingdom of Jordan welcomed the recovery of the visa-free travel agreement with Qatar, which was formally announced on Sunday, June 6, 2021. This agreement, brokered by the State of Qatar, was in line with the IPU resolution of the Madrid Middle East Peace Conference, which was approved by the European Union and the United Nations, including the United States. The agreement, which was initially suspended due to the COVID-19 pandemic, has been reopened for travel and tourism, creating a positive impact on the tourism industry in both countries. Jordanian authorities have stated that they are committed to ensuring the safety and security of all travelers, and that the reopening of the visa-free travel agreement will contribute to the return of tourism to the region and the promotion of the cultural and historical heritage of both countries.
Qatar Charity projects ease Gaza pain

The projects are implemented in the fields of education, health, water, sanitation and emergency relief projects. The number of those sponsored by Qatar Charity is more than 18,000, including orphans, poor families and persons with special needs. During the holy month of Ramadan, more than 1,000 fans were distributed to affected families of the blockade, in addition to dialling 8,000 cash calls on an average. Qatar Charity has urged benefactors to continue to contribute to the relief campaign for Palestine.

GAC MOTOR Launches New Slogan & Brand Values: GO AND CHANGE!

GAC MOTOR has introduced a new slogan and brand values – "GO AND CHANGE!" – highlighting the company’s commitment to driving forward in the automotive industry.

The new slogan, "GO AND CHANGE!", signifies GAC MOTOR’s determination to continuously innovate and improve its products and services, embracing the latest technologies and trends in the automotive sector. The brand values of "Quality, Durability and Reliability" are core elements of the new slogan, underscoring GAC MOTOR’s commitment to delivering high-quality vehicles that are reliable and durable.

The company’s new slogan is designed to capture the spirit of innovation and progress that define the company’s mission. "GO AND CHANGE!" reflects GAC MOTOR’s focus on technological advancement, design excellence, and customer satisfaction. The brand values of "Quality, Durability and Reliability" are the cornerstones of GAC MOTOR’s approach to building vehicles that are not only aesthetically pleasing but also functionally superior.

QIB declares 2nd Lexus LX 570 winner for salary transfer offer

Qatar Islamic Bank (QIB) has announced the second Lexus LX 570 winner, following the promotion’s second stage draw held in the presence of representatives from the Ministry of Commerce and Industry and QIB officials.

Valid until May 31, 2021, the exclusive offer provides citizens and residents of Qatar the opportunity to benefit from the most competitive banking offers in the country by simply need to transfer their salary to their account in QIB and avail personal and home finance programmes.

By entering the draw, individuals simply need to transfer their salary, with a minimum of QR10,000, and avail any finance offer, personal, auto or home, during the promotion period until May 31, 2021. They will also be eligible to enter the draw if they have transferred their salary twice during the promotion period.

The ongoing QIB salary transfer offer will provide new customers the chance to win one of the five structures in which the current generation of Yellowstone is written in Iraq, with the exception of some unhappy groups. “We would like to thank all existing and potential customers for being part of the bank’s ongoing initiatives, it has been a wonderful few days of our offer and to enjoy exclusive benefits when transferring their salary or winning the car prize,” said Rashid al-Noora, for being the second winner of the Lexus LX 570 car prize.

QIB customer Ali Rashid al-Noora is the second Lexus LX 570 winner.

Every customer opening a salary account with QIB during this period can benefit from all the offers available at an exclusive rate. All new salary transfer customers will also receive a bonus credit card for the first year, in addition to getting a free subscription to the QIB-MyBook App, offering exclusive ‘Buy One Get One Free’ options from over 5,500 stores and exclusive offers at different restaurants, hotels, theme parks, salons, fitness centres, and various other retail outlets in Qatar.

New customers can open their QIB account digitally in a few minutes using a smartphone and the QIB app. Open a QIB account on the QIB-MyBook App or by contacting the nearest支行. Once the account is open, new customers can avail all the benefits currently offered, including the opportunity of winning the car prize.

QIB-MyBook App, offering exclusive ‘Buy One Get One Free’ options from over 5,500 stores and exclusive offers at different restaurants, hotels, theme parks, salons, fitness centres, and various other retail outlets in Qatar.

QIB customers have the chance to win the greatest prize available in Qatar, the Lexus LX 570 car, worth QR 2,000,000, by simply transferring their salary for the first time to their account in QIB and avail personal and home finance programmes.

The speaker of Iran’s parliament said yesterday that talks with the United Nations over the country’s nuclear program were heading towards a conclusion.

The announcement raised further questions about the future of indirect talks under way between Iran and major world powers on the 2015 nuclear deal. "We have been working toward an understanding that will bring about a political process," Qalibaf, the speaker of Iran’s parliament, said.

According to the member of Iran’s Supreme National Security Council, the talks were aimed at ensuring that Iran and the other parties to the 2015 nuclear deal could find a way to return to compliance with the terms of the agreement, "The talks have been successful in terms of understanding the principles of the deal," he added.

To pressure President Joe Biden's administration, "The Iran talks are now at a critical stage," he said.

But the military governor of the Goma region, Constant Ndima, appointed last week by the Congolese president, said there was no doubt that the military could have been involved in the incident.

The announcement raised further questions about the future of indirect talks under way between Iran and major world powers on the 2015 nuclear deal. "We have been working toward an understanding that will bring about a political process," Qalibaf, the speaker of Iran’s parliament, said.

The Australian government’s National Technical Advisory Panel has moved to vaccinate for some categories or age.” He added that the country is trying to get a high percentage of people vaccinated.

However, Madigan said Australia’s latest advertisements were aimed at an effective advertising technique. “Our campaigns have been aimed at reaching the community information out there. In fact, we’re doing something that can remember them. But they have more than enough time now to come up with something better and more effective.”

Regarding the prohibitions, Madigan said: “I would encourage it by saying that we’re considering those who stay in the area. We need something that’s a little bit different from what’s been happening.”

The world’s worst rise in coronavirus cases has killed at least 14 people, including Andhra Pradesh and Maharashtra. The ministry of health and family welfare has yet to receive any response.

Meanwhile, India’s capital New Delhi will start relaxing its strict lockdown measures from Monday to August 25, according to a government official.

The ministry and Modi’s office had also approached the WHO regarding the Pfizer, Johnson & Johnson and Sputnik vaccines but have yet to receive a response. “We need to be prepared to respond for containment,” Modi had said. An official of the Ministry of Health and Family Welfare had told The Indian Express that India was “dying now waiting too long to roll out vaccines,” and the government needed to act now.

In the statement, Punjab official Harsimrat Kaur Badal had threatened the federal government, uploaded on the federal government’s official Facebook page. “We will go for their vaccination three times a week,” she said.

India’s navy said earlier on Saturday afternoon that 14 personnel of the Indian Navy were killed and 25 others were injured when two helicopters collided.

Several reports of heart issues in US young people after vaccine: CDC

President Joe Biden announced a notable change in US vaccination policies yesterday as throngs gathered around him, waving Brazilian flags. The_fifo有趣工房

The 1958 crisis ended when the United States started in mid-May allowing children aged 12-15 to get vaccinated against the coronavirus. The government had decided that the benefits of vaccinating children outweighed the risks, and that it was important to vaccinate as many young people as possible to help achieve herd immunity. The CDC said that children aged 12-15 had been excluded from the initial vaccination campaign because it was not clear whether they would develop a sufficient immune response to the vaccine. However, data from recent trials showed that children aged 12-15 had a similar immune response to the vaccine as adults, and that the risk of serious side effects was low. The CDC said that it would continue to monitor the safety of the vaccine in children aged 12-15 as more data becomes available.

Brazil's president leads bike rally through city

In Toronto, police said the attack occurred at about 11.40pm on Saturday, March 2, near the intersection of Eglinton Avenue West and Verdun Avenue. The incident was described as a hate crime.

In the event, then-President Ellen, who asked to use only her first name, was detained in internment camps in the upper house's inquiry into the handling of personal data.

The need for annual booster shots might become a minor inconvenience in rich countries, but it could become a major inconvenience in poorer countries, where vaccine supplies are limited. The world Health Organization’s (WHO) regional director for Europe, Dr Hans Kluge, said that all countries should ensure that Covid-19 vaccines are effective against all known variants of the virus.

QM announces MIA renovations

Abdul Mohsen al-Rashed, the director of the Buildings Projects Department at Ashghal, expressed satisfaction with the results achieved in the current renovation works at the Museum of Islamic Art (MIA).

He added: "This support comes from the fund's role in promoting and enhancing the culture of Islamic art in the Qatari society and highlighting it to the world." He added: "We hope that the museum will attract more visitors from different parts of the world."

Al-Namla noted: "We are pleased to cooperate with the Social and Sport Ministry and Ashghal in the project, which has been implemented in order to attract a larger number of people interested in the history of Islamic art, in order to get acquainted with a large group of cultural and historical heritage owned by Qatar and which are housed in this distinctive architectural house."

Ashghal's projects to verify that the GSAS (Global Sustainability Assessment System) standards are implemented and the vast construction areas to accommodate a large number of patients and visitors, thus delivering quality and improved medical services to patients."

Ashghal has bagged two Sustainability Awards (2016) in health and education facilities from the Gulf Organization for Research and Development (Gord), the building management organization related to performance-based systems of GSAS implementation and development. It also organizes regular seminars and training courses on the selection of sustainable building projects – educational and health – and conducts site visits to Ashghal's projects to verify that they meet GSAS standards.

Ashghal has also examined the designs of building projects – educational and health – and conducted site visits to Ashghal's projects to verify that they meet GSAS standards.
