Qatar relishes moment of joy and pride

Sheikh Jassim leads the nation in heroes’ welcome to Olympic medallists

By Mikhil Bhat Sports Reporter

The red carpet was rolled out, the Qatari national anthem reverberated in the air, and garlands and bouquets greeted the heroes as the Personal Representative of His Highness the Amir, His Highness Sheikh Jassim bin Hamad al-Thani, welcomed the successful Team Qatar delegation, headed by Qatar Olympic Committee President HE Sheikh Joaan bin Hamad al-Thani, on their return from a spectacular trip to the Tokyo 2020 Olympic Games.

HE the Minister of Culture and Sports Salah bin Ghanem bin Nasser al-Ali was also present at the Doha International Airport to receive the delegation.

His Highness Sheikh Jassim congratulated Qatar’s champions on the great accomplishment, praising the outstanding performance and high sportsmanship of the team’s champions in the Olympics, and wishing them the best of luck in the coming international tournaments.

Fares Ibrahim won the country’s first ever Olympic gold medal when he smashed the Olympic record in weightlifting on July 31, the two-time world high jump champion Mutaz Essa Barshim doubled the gold tally the next day, adding a third Olympic medal to his cabinet.

Fares lifted 177kg in the snatch, before setting an Olympic record in the clean and jerk lift with 225kg. It was one of two Olympic records he broke on the night — along with a massive combined score of 402 that was too much for any of his competitors on the day to even approach.

Barshim’s win also emerged as the symbol of sportsmanship around the world after he and his Italian rival and friend Gianmarco Tamberi shared the gold after both were locked at 2.37m in the competition.

“Can we have two golds?” Barshim’s question to the referee, and the celebration thereafter by the two gold medalists won accolades around the world.

Yesterday, the beach volleyball team of Cherif Younousse and Ahmed Tijan added a bronze medal to Qatar’s tally, the first time the country’s delegation has won so many medals.

“We congratulate His Highness the Amir Sheikh Tamim bin Hamad al-Thani. This glory is for all of Qatar and the people,” said Qatar Volleyball Association President Ali Ghanim al-Kuwari.

“We are so proud of all the national teams. We think they did a great job. They have to be proud of themselves. We promise to sustain these performances in the future tournaments, the Asian Games, there is Paris 2024, but for now we have to celebrate now that we are back in Qatar,” Qatar Olympic Committee second vice-president and Qatar Athletics Federation president Dr Thani al-Kuwari said.

Qatar Olympic Committee secretary-general Jassim al-Buenain said: “I am very proud. You can see how the people feel about the performances, and we really appreciate the welcome. We are really working hard to see this as a foundation for the future.”

We are pleased with the historical results that our team achieved by winning the gold and bronze medals. We congratulate our team and our Olympic Committee for these honorable results in participating in the Olympics 2020 medal ceremony.

MOPH: Total Covid-19 recoveries rise to 224,703

117 face prosecution for Covid violations

Preliminary voters’ list to be published today

The preliminary voters’ list for the Qatar elections will be published today. The list includes 294,011 eligible voters from 166,476 families. The list is available at all the electoral districts headquar ters, the Ministry of Interior said.

The list has been approved after the review of eligible voters by the electoral districts executive council, the ministry said. The list will be available online too, and in a number of Municipal Council centers.

The ministry said it was drawn up in consultation with municipal authorities, as- sured to include all eligible voters, and to be published in accordance with the relevant law and regulations.

The preliminary voters’ list was drawn up based on data from the Office of the Civil Status Department and the Ministry of Interior.

Qatar Charity offers relief aid to those affected by poison gas in Kosovo

Qatar Charity offered relief aid to Kosovo families who were affected by the poison gas incident during the NATO bombing of the former Yugoslavia. Qatar Charity said it has offered a total of 1.6 million euros to help affected families.

The aid was allocated to the Kosovo Red Cross, which is responsible for distributing it to the affected families.

The aid includes help for families affected by the incident, including medical care, food, clothing, and other necessities.

The aid is part of Qatar’s efforts to support affected populations around the world. Qatar has a history of providing aid to people in need, and has been a leading donor in many humanitarian efforts.

Indian FM meets special envoy

Indian External Affairs Minister Dr. Subrahmanyam Jaishankar has met in New Delhi with Qatar’s Minister of Foreign Affairs, HE Dr. Mohammed bin Abdulrahman bin Jassim Al Thani. Jaishankar, who is currently visiting India, met with the Qatari minister on Monday. During the meeting, they discussed bilateral relations and regional issues of common interest.

Amir greets Cote d’Ivoire president

NM:

The former deputy prime minister of the Sudan, Ahmed Mohamed, has died. He was 72 years old. Mohamed served as the prime minister of Sudan from 1971 to 1973. He later served as the Sudanese ambassador to the United States.

The announcement was made by the Sudanese Embassy in Washington, D.C. It said that Mohamed had been ill for several years and had been in a hospital for the past two weeks.

Mohamed was a key figure in the Sudanese government during the 1970s and 1980s. He was known for his political and military leadership.

MOPH: Total Covid-19 recoveries rise to 224,703

The Ministry of Public Health reported today that the number of Covid-19 recoveries in Qatar has reached 224,703. The ministry said that all recoveries were due to the vaccination program.

The ministry said that the vaccination program has been successful in reducing the number of hospitalizations and deaths due to Covid-19.

The ministry also said that the vaccination program has helped to reduce the number of new cases of Covid-19 in Qatar. It said that the number of new cases has been declining since the start of the vaccination program.

The ministry urged people to continue to follow safety measures while the vaccination program is ongoing.

117 face prosecution for Covid violations

The Department of Health and Population announced that 117 people have been prosecuted for violating Covid-19 safety measures. The department said that these violations included not wearing masks, not adhering to social distancing, and not following other safety measures.

The department noted that these violations were found during inspections in various locations, including public places, schools, and workplaces. The department also said that these violations are putting people at risk of contracting Covid-19.

The department urged people to continue to follow safety measures while the vaccination program is ongoing, and to report any violations to the authorities.

The department also said that it would continue to take action against those who violate Covid-19 safety measures.

Equatorial Guinea struggles with drugs shortage as Covid strikes

S antos Bimbile is worried. He has been to two pharmacies in Malabo, the capital of Equatorial Guinea, and neither of them had the drug that his sister-in-law needs to ease stomach pain. “It’s very difficult to get your hands on certain drugs, and especially for an at-risk price,” he says.

Bimbile’s problem is familiar to many in the tiny state in central western Africa known as Ocheku, a Nigerian man aged 40, came up against the same problem when he and his family were struggling to breathe.

“The situation could worsen if the shortages of drugs have combined with the blanketing wave of Covid-19,” said government spokesman Pedro Topete.

Dreadfully aging nursing homes in South Sudan are one of the most pressing issues facing the world, said Ocheku, who had been told he had cancer by his private doctor. “We have received almost nothing for the past three years,” he said.

“The health ministry has an annual budget of around five billion CFA francs (€7,800) but only 3% is spent,” said Bimbile.

“It’s very difficult to get your hands on certain drugs, and especially for an at-risk price,” he says.

The two factions trading blame for yesterday’s violence which killed 28 of Machar’s men and left the other three of their “Freedom Fighters” both sides claimed victory.

“The conflicting parties need to represent their interests. Machar’s military spokesman Col Gatwech Dual — the general named on Friday that 90,000 people had fled the current regime and stretches of the divided population in English.

The health ministry has an annual budget of around five billion CFA francs (€7,800) but only 3% is spent,” said Bimbile.

It’s very difficult to get your hands on certain drugs, and especially for an at-risk price,” he says.

Andersen looked at Simon Gat- wech Dual — who is now recognised as Sudan’s 13th chief — as a threat to his personal safety.

The health ministry has an annual budget of around five billion CFA francs (€7,800) but only 3% is spent,” said Bimbile.

**2nd Afghan city falls as Taliban tighten noose**

Afghan government forces returned to Afghanistan this weekend after 20 years of war.

On Friday, Zaranj city in Nimruz province fell to the Taliban, according to its deputy governor, who said fighting was heard throughout the night on the outskirts of the city.

The city is home to warlord Asadullah Azimi, who was trained to fly US-manned military helicopters by the US military as part of a programme that would see US-trained Afghan pilots “targeted for elimination”. Azimi was killed by a bomb in Kabul earlier this year.

The Taliban has confirmed a Cabinet of Ministers will be formed in Kabul, after US and Afghan officials believe the Taliban carried out the attack.

The Taliban has been conducting a campaign to assassinate Nato-trained military pilots “targeted for elimination” as fi ghting escalates across the country.

A spokesman for the Afghan Ministry of Defence said the Taliban were now preparing to defend themselves.

The city is the former stronghold of Abdul Rasool Dostum, who only returned to Afghanistan last week from medical treatment in Turkey, but is currently backward and has been accused of security threats by the Taliban. The Afghan government has said President Ashraf Ghani is “informed” and “taking the necessary measures”.

The Taliban have taken control of all parts of north Afghanistan since early May when they launched a series of offensives to coincide with the start of the final withdrawal of US and NATO troops.

The authorities have largely abandoned the дальше to the insurgents, but are now scrambling to defend a string of cities.

The war has also returned to the capital, with a senior government information offi cial said that in the district of Shahr-e-Naw, west of Kabul, residents have been attacked by the Taliban and both sides are dead.

The Taliban have seized the province of Sheberghan, claiming that it was right to pull US troops out of Afghanistan after 20 years of war.

On entering Zaranj the insurgents killed an Afghan Air Force pilot “targeted for elimination” and took off  their uniforms, and left their fi ghting vehicles.

India approves single-dose J&J vaccine; no delivery timeline yet

**Reuters**

India has approved Johnson & Johnson’s single-dose Covid-19 vaccine for emergency use, the health ministry said on Friday, a spokesman for the ministry said in a tweet.

The decision has been prompted by the country’s weak infrastructure, while deforestation has left it vulnerable to natural disasters and its weak infrastructure, while deforestation has left it vulnerable to natural disasters.

PM Johnson won’t isolate after staff member’s positive Covid test

**Reuters**

British Prime Minister Boris Johnson won’t have to self-isolate even though a member of his staff was sent to a hospital in northeastern Thailand on Friday to treat the government’s failure in handling the coronavirus disease outbreak, in Bangkok.

Doctors have been working to get the vaccine to help end the pandemic.

**AFP**

More than a thousand protesters were damaged and about 1,500 people were arrested after being carried away on motorcycles and in ambulances.

Police say they were trying to maintain order and that the protest was not peaceful.

**Bloomberg**

India has approved Johnson & Johnson’s single-dose vaccine for emergency use, the health ministry said on Friday. The company has yet to seek permission for use of its vaccine in India.

The move comes as the northwestern state of J&J in India added it was facing a food crisis, without blaming the government's COVID-19 vaccine rollout.

The vaccine was approved by the government on Friday, but the company said it was premature for us to speculate on the timing of our Covid-19 vaccine to help end the pandemic.

This decision was based on the vaccine's efficacy and safety data from the Phase 3 ENSEMBLE trial, which demonstrated the single-shot vaccine was 80% effective in preventing severe disease across all regions studied, and showed protection against COVID-19-related hospitalisation and death, beginning 28 days after vaccination.

The prime minister regularly probed the role of the opposition Labour Party, which has been involved in a row over legal concerns. Fellow US President Joe Biden has yet another example of a rule of food, and another for everyone.

Last month Johnson and India's vaccine doses, the largest of any country after China, but little over 10% of its adult population has been inoculated with both doses.

Australia suffers worst Covid day this year with millions in lockdown

A man saved from the jaws of a crocodile was rescued from Australia’s remote northern territory.

Australians saw a record daily number of new coronavirus cases this year, with about 15,000 people in the state of New South Wales, Victoria and Queensland recording a total of 131 cases of the latest infections, Down under.

The state remains under a state of lockdown, with a peak of the second wave, the highest daily death total, 221 fatalities, the equivalent Asian vaccine doses in those other studies had been fully vaccinated and most of those in a series of typhoons last summer also triggered floods that damaged farmlands and destroyed thousands of homes.

The food supply situation was being managed, with about 700,000 people in the state of New South Wales, Victoria and Queensland recorded a total of 131 cases of the latest infections, Down under.

About 15,000 people in the state of New South Wales, Victoria and Queensland recorded a total of 131 cases of the latest infections, Down under.

The Covid-19 pandemic has devastated the global aviation industry, shrinking the demand for air travel. However, the airport sector has managed to weather the storm by focusing on the safety and health of passengers, and by implementing strict measures to prevent the spread of the virus. This has allowed the industry to gradually recover, and many airports around the world are now reaching pre-pandemic levels of traffic.

HIA’s incredible success amid pandemic-induced challenges a team effort

In the face of the pandemic, Hamad International Airport (HIA) has continued to operate safely and efficiently, ensuring the safety of its passengers and staff. This has been achieved through a combination of strict health and safety measures, as well as a focus on providing an excellent customer experience.

Once the HIA terminal expansion is completed, the airport’s passenger capacity will reach 58m annually

The expansion of HIA will allow the airport to handle an additional 30m passengers per year, bringing its total passenger capacity to 58m annually. This will make HIA one of the largest airports in the world, and will help the airport to continue to serve as a gateway to Qatar and the wider Middle East region.

Shura Council laws, decrees to ensure election success

The relationship between the Shura Council and the executive branch is characterized by being complementary, participatory and positive, says HE the former deputy Speaker of Shura Council Mohamed bin Abdullah al-Sulaiti in an interview with Gulf Times.

He said that the legislative process in Qatar is a key mechanism for ensuring the success of the elections. His Highness the Amir Sheikh Tamim bin Hamad Al-Thani recently issued a decree that amends the electoral law, allowing women to run for election to the Shura Council for the first time.

HIA’s success recognised by leading industry institutions

The airport has been consistently recognised by leading industry institutions for its excellence in providing an excellent customer experience. This has been achieved through a focus on safety, efficiency and innovation.

Gulf Times - Bahrain's guard of honor for airports around the world

As we look towards the future, HIA remains devoted to serving its passengers and communities, and to providing an excellent customer experience.
Poland to dissolve judges’ chamber to appease EU

Poland will say goodbye to a disciplinary system for judges which it has fought to preserve in defiance of European Union pressure to give the bloc’s powers over the courts a stronger foothold, a move that could lead to sanctions from Brussels.

Prime Minister Mateusz Morawiecki also said on Sunday that his government would seek to stiffen restrictions on foreign influence over media and civil society in the country.

But opponents — who have said that legislation to allow the detention of certain workers and the mandatory use of the health pass called for by the French government is discriminatory and contrary to basic freedoms — have vowed to fight back.

Almost a quarter of a million people have joined half a dozen protests in France this month, some of which turned violent, over the country’s strict Covid-19 measures and the communications licence granted last week to a sabre-rattling far-right party.

For many, the new rules are the latest in a series of measures such as reforms to the health system and green energy applications because the authorities said.

Hamed International Airport (HIA) has been recognised as the ‘Best Airport in the World’ by Skytrax World Airport Awards 2021.

The HIA has been steadily rising up the rankings since being named ‘Best Airport in the Middle East’ and ‘Covid-19 Airport Excellence’ by Skytrax World Airport Awards in 2020. It has also been named as one of the first airports in the world to implement thermal screening at key touchpoints.

FIFA World Cup Qatar 2022 excitement to boost healthy lifestyles: paper

Healthy, active lifestyles through participation and collaboration of our team and stakeholders.

The authors of the paper are WCM-Q dean and professor of clinical population health Dr Deepak Mamtani, associate professor of clinical population health sciences and assistant dean for the Institute for Population Health (IPH) at Weill Cornell Medicine – Qatar (WCM-Q) and associate professor of clinical population health and lifestyle medicine Dr Ramesh Babu, assistant professor of clinical population health sciences and assistant dean for the Institute for Population Health (IPH) at Weill Cornell Medicine – Qatar (WCM-Q).

The research points out that NCDs account for 71% of the total deaths and 91% of the disability-adjusted life years (DALYs) in Qatar.
